Sir,

With reference to Government Proceedings No 1961-3-Rl 362-08-17 dated the 26th August last, requesting to report how the advance of Rs 600/- sanctioned for meeting the cost of coolies employed for pumping water from the Karwarthe Reservoir is proposed to be repaid, I have the honour to state, that Thummanakan Tank and the reservoir situated below it received only 2 or 3 months' supply of water, and the North East Monsoon when tank-filling rains are generally expected having failed during the current year

year. water is being pumped for the town-people & the tank received no fresh supply during the next South West Monsoon, it is feared that the supply of water by means of pumping at a monthly cost of not less than Rs 100/- will have to be continued till the end of the current official year A sum of Rs 450/- from July to end of last month has already been incurred on this account, and another Rs 700 will be required for the remaining part of the year.

It will be seen from the Budget of the Chaldrig Municipality for the current year that the provision of Rs 2,150 made under VIII - P H - is reduced by Government to Rs 1650/- and this amount is quite inadequate even for carrying out sanitary and other works of urgent nature such being the case, if this amount of Rs 450 + 600 (advances) has to be met from this grant, there will be no amount available even for carrying out ordinary repairs

by R.S. 5.10.37.
Rs 7½ (Rs 7)

I may bring to the notice of Government, that every years a sum of Rs 847/- including interest is provided in the Budget to meet the instalment charges towards the large loan borrowed from the water works This is a heavy drain on this poor Municipality year after year

The Government have not remitted any portion of this loan in spite of strong representations from time to time by the Municipal Council, as was done in the case of Kolar Municipality — Vide Government Proceedings No 8065-77 Rev 246 05 dated 23rd May 1906 The resources of this Municipality are very limited and deserve every consideration from Government

As prayed for by the Municipal Council I beg the Government will be pleased to meet this small amount from Local Funds General as already requested in my letter No 319 dated 9 W

⊕ The original request was to grant from P Funds & not Rev & P Funds. Vide

P No. 1961-3 / MC 342-08-17 dated the 26th August last, requesting to report how the advance of Rs 600/- sanctioned for meeting the cost of coolies employed for pumping water from the Kariwark Reservoir, is proposed to be refunded.

Resolution :- The Secretary to the Council reports that the condition of the pumping plant is not satisfactory and that the supply of water is not sufficient to meet the demands of the town. The cost of repairs is estimated at about Rs 1000/-. If the Municipality is willing to repay the advance of Rs 600/-

and also to meet the charges of pumping; there will be no amount available in the current year's budget even for ordinary repairs & roads. In these circumstances the Board regret they cannot advance the money required that the Government may kindly be addressed to waive the payment of the advance

the said advances may be refunded to L. G. General.

Order thereon 5932-3 ml 84-09 9/18.1.10

It is directed that the item of expenditure under reference is a legitimate charge to be borne by the municipality and the ML Council should find the ways and means towards the purpose for repaying the money advanced is certainly a question for the municipal Council to decide. Govt cannot be strongly impressed upon the municipal Council that they cannot plead financial inability for meeting these pressing obligations and ask for extraneous help. They have seriously consider the question of adding to their resources to prevent further applications of the kind. In the present case, however, Govt are pleased to extend the time for repayment by
